

Aquamarine-tours

A Magical, relaxing journey like no other

Planning your next weekend retreat away from a busy life?

On-board Aquarius you will be mesmerized by our simple, back-to-nature, laidback lifestyle. Just for one day forget the noise and the pressure of hectic city life. Stop the clock and enjoy our magical journey.

Enjoy a thrilling sports fishing experience with our highly-skilled fishing crew

The UAE is world famous for its sports fishery. The Indian Ocean and Arabian Gulf teem with many different kinds of fish like tuna, hamour (grouper) barracuda, kingfish, queenfish, dorado, jackfish, traveller and snapper.

Take your pick from either deep sea trolling or bottom fishing.

Deep sea fishing we troll with rapala as bait to catch big fish like cobia, barracuda, jackfish, hamour, kingfish and dorado.

Bottom fishing we use time-honoured classical fishing methods with rods and hand lines off the boat. Fresh bait is used to attract jackfish, sherry and other smaller fish.

Our fishing boats hold up to a maximum of six people. We supply all the necessary equipment. We also provide you with complimentary soft drinks on board.

Cruises

- ◆ We invite you on a 6-7 hour adventure on our wooden sailing schooner “Aquarius” from Fujairah to Coral Garden and Martini Rock off Khorfakan
- ◆ Beautiful mountain scenery unfolding in front of your eyes, the magnificent underwater world of coral islands , the opportunity to sunbathe and swim in the waters of the Indian Ocean- and a sea food lunch
- ◆ Enjoy all this during our unforgettable sea cruise from Fujairah!

Diving & snorkeling

- ◆ People have always been entranced by the underwater world Why? Nobody knows for sure. Maybe it's because we all came from the sea, or maybe it's because 90% of our bodies is water.
- ◆ Whatever the reason, to see the underwater world with your own eyes is like dipping into another dimension
- ◆ And here in the UAE, we have found, in the Indian Ocean off the east coast, one of the most interesting places for diving.

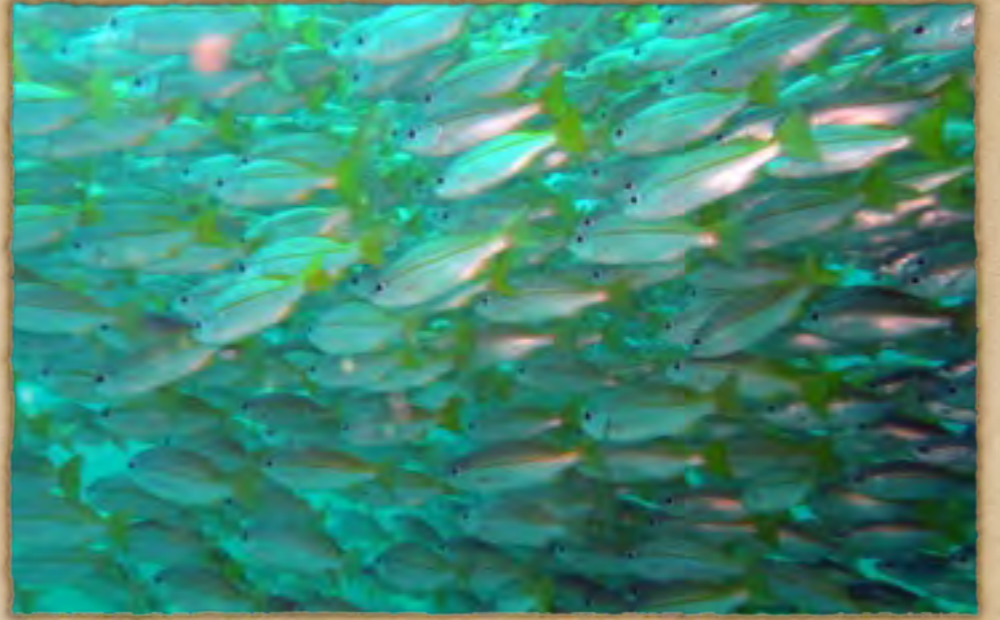

Diving & snorkeling

Martini Rock

Martini Rock is a small coral island with several sandy gullies. It is covered with red, orange and purple corals interspersed with whole branches of green and white corals and crinoids clusters where shrimp hide. The abundance of marine life like rays, fusiliers, triggerfish, largemouth mackerel make this an incredible place for diving. Sometimes it is even possible to spot some rare sea "visitors" here -black reef sharks and leopard sharks.
